

Coil Tubing & Nitrogen Services

CROSCO Coil Tubing Services are provided onshore and offshore with truck or trailer mounted Coil Tubing Units and highly trained and experienced personnel. Reeled coiled tubing sizes are 1" (25,4 mm) and 1-1/2" (38,1 mm). In combination with Coil Tubing Downhole tools a wide array of wellbore applications can be performed including:

- Well lifting/killing;
- Wellbore cleanouts;
- Obstructions milling;
- Fishing;
- Stimulation operations;
- Cementing.

CROSCO was among the first contractors that offered Coil Tubing Services in Europe in 1975.

Coil Tubing Units:

- Bowen 30MB;
- Bowen 12MX;
- Bowen 15MZ;

CROSCO Nitrogen Services operate onshore and offshore with automated units and lightweight offshore skids. Nitrogen Units are mostly used for well applications to reduce the weight of fluid in the wellbore and for nitrogen purging of pipelines and tanks. Unique properties of liquid and gaseous nitrogen offer a wide range of applications in oil, gas and petrochemical industries.

Nitrogen Units:

- Hobbs;
- Skid I;
- Skid II.
